Career Objective

B.Tech Computer Science (AI & ML) student with hands-on experience in Python, Machine Learning, Data Science, and Full-Stack Development. Developed AI-based projects in sentiment analysis, face recognition, and speech processing. Seeking opportunities to apply technical and analytical skills in real-world environments.

Education

Qualification	Board	Year
United Institute Of Technology (B.Tech)	Dr. APJ Abdul Kalam Technical University	2023-2027
Green View Public School (Intermediate)	CBSE Board	2021
G.D Memorial Children's Academy (High School)	CBSE Board	2019

Projects

- Smart Healthcare Remote Monitoring System** (React.js, Node.js, Firebase, ML)
Live Demo : <https://smart-health-rontend.onrender.com>
 - Full-stack healthcare monitoring platform with real-time patient tracking.
 - Integrated machine learning predictions and doctor-patient dashboards.
- Twitter Sentiment Analysis Platform** (Python, NLP, Scikit-learn, NLTK, Streamlit)
 - Processed 1,000+ tweets using Twitter API and NLP techniques.
 - Improved sentiment classification accuracy by 12% and deployed via Streamlit.
- Face Recognition Attendance Monitoring System** (Python, OpenCV, Tkinter)
 - Developed automated attendance system using facial recognition techniques.
 - Achieved 90% recognition accuracy and reduced manual effort by 85%.
- Murder Mystery Detective Game** (Node.js, Express.js, SQLite)
 - Built full-stack web application with authentication and REST APIs.
 - Optimized SQLite queries for improved performance and user experience.
- Speech Recognition System** (Python, CNN, RNN, LSTM)
 - Developed deep learning model for speech emotion recognition.
 - Achieved 85% classification accuracy using MFCC-based features.

Training & Certifications

- **Machine Learning and Neural Networks Certification** — IIIT Allahabad (July 2025)
- **Python for Data Science Certification** — UIT (August 2024)
- **Web Development Quiz (Top 5)** — GDG On Campus UIT (July 2025)
- **Data Science Course** — Code With Harry (March 2026)
- **Ideathon Participation Certificate** — E-Cell UIT, United Incubation Hub

Skills

- **Languages:** Python, C++, JavaScript, SQL
- **Frontend:** HTML, CSS, React.js, Tailwind CSS
- **Backend:** Node.js, Express.js, Flask
- **Databases:** MongoDB, MySQL, Firebase, Supabase
- **Tools:** Git, GitHub, Postman, VS Code
- **Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems
- **Technologies:** Machine Learning, NLP, Deep Learning, REST APIs
- **Soft Skills:** Teamwork, Communication, Leadership

Extra-Curricular

Represented college volleyball team, improving teamwork, discipline, and strategy.
